## Measuring for Single Selection to Span Multiple Windows

If you'd like your selection to span more than one window, in addition to your window measurements, also measure the space between your windows and round your space measurement/s to the nearest 1".

The space measurement will be cropped for optimum viewing of your selection when installed in multiple windows.

<b>Window 1</b>		<b>Space 1</b>	
Width <small>(Round down to nearest 1/8")</small>	Height <small>(Round up to nearest 1/8")</small>	Width <small>(Round width to nearest 1")</small>	
Top 58 1/4	Left 65 3/8	4"	
Middle 58 1/8	Center 65 3/8		
Bottom 58 1/4	Right 65 1/2		
Mount Preference: Inside <input checked="" type="checkbox"/> Outside <input type="checkbox"/>		Lift Location: Right <input checked="" type="checkbox"/> Left <input type="checkbox"/>
